10.20	Best Practices Adopted, If Any	Industry Collaborations: <ul style="list-style-type: none"> • In line with the Institutions Mission statement, Industrial collaborations are strengthened to inculcate professional qualities in the students for making them conversant with Industrial practices and environment. • The Institute has prioritized learner centric practices for quality teaching learning process to improve employability. • Noted Outcomes of Industrial Collaborations are, enhancement of internships, sponsored projects and employability enhancement. • The Industrial collaborations also helped in learning core competent technological skills in respective thrust areas.

Outcome Based Education

- D Y Patil College of Engineering is a flagship college of Dr D Y Patil Pratisthan established in year 1984 and enjoys high reputation in real life earned by Management, Faculty, and Alumni. Institute Alumni are of high engineering acumen and are well placed globally.

- At DYPCOE, Outcome Based Education is primarily practiced, concentrating on, enhancing employability amongst students, faculty competence, bridging curriculum gaps, continual improvement, dissemination in students, seal of approval of stakeholders including teaching-learning and evaluation processes as per Industry 4.0.

- All OBE processes are nurtured from Outcome (Placement, Higher Education and Entrepreneurship) point of view. CO-PO methods are devised to bridge curriculum gaps by seeking active guidance of Tier 1 Institute (College of Engineering, Pune-COEP) as part of MoU of DYPCOE with COEP as reflected in Education 4.0. To ensure, constant connect with students and dissemination in them, ICT based practices are followed, which predominantly include, Open Source Cloud based Learning Management System (LMS) Gnomio-Open Source Cloud based moodle, as recommended by IIT Bombay Xunder NMEICT
